A DAMP NUISANCE.

The complaint is becoming more general that the watering carts are becoming over officious. The sun has not been out so strong this week, but is elected. As one of our Fort Worth the carts keep going forever. The papers says: streets have been kept in constant state of mud all this week. Cornell Instructor Says Hughes Could Not Take Legislative Thread Now

New York, Oct. 9 .- Prof. Ernes Merritt, of the chair of physics, Cornell University, is the latest college professor to join the Woodrow Wilson Independent, League. He gives the following reasons:

"It seems to me that the Hughes campaign is being conducted along old-fashioned lines and that the public has largely outgrown its liking for that sort of thing.

"There is, however, in my opinion an argument for the re-election of Wilson which would be strong and valid under any circumstances. I reremembered by our friends as a young fer to the danger of a radical change in our foreign relations. Many difficult questions have arisen in the course of Mr. Wilson's administration, questions so important and difficult that I think it can be truly said that no president, with the possible ex-ception of Lincoln, has ever had to hardle so difficult a situation handle so difficult a situation.

"Many of the negotiations with for ign countries are still not complete and for, from the nature of the case cannot be brought to a conclusion until the close of the war. "As the campaign becomes more spirited, Candidate Hughes, more and more forgets himself. He is no longer the man of excellent wisdom and judicial calm, but a sort of forlorn echo of Roosevelt, blundering forward without caution. Since the passage of the Adamson bill, he has no end of raw material and he uses it rawly. For one thing he declares the measure was the product of fear; for another he declares, it is poor legislation, that it will not hold. Now what would Candidate Hughes have done in such an emergency? With gun pointed his way would he have defied it, at enormous risk to the people, or would he have risked legislation, that being weak, as he considers it, become inoperative from that fact? Mr. Hughes can not-or will notsay.

Other presidents have emphasized the need of federal child labor legislation, some would-be presidents are proclaiming before high heaven that they love the children and yearn for an opportunity to lighten their burdens but Woodrow Wilson is the only president who ever coined his words into deeds on this subject.

His influence put the bill through the Senate, his signature made it law. and to him belong the honor and the glory. God bless him!

It wasn't an easy fight. I introduced the bill on the opening day of the Sixty-third Congress. A score of cooks had a finger in the ple, Owen Lovejoy and Dr. A. J. Many who had knowledge of Tanlac or had made up their minds simply said: "Give me Tantac."

The introduction was largest by far ever seen here. The manager of the YOU WILL FIND OUR PRICES AS store said: "We were greatly surlac. We had no idea the reconstructive tonic was so well known to the people of Bridgeport. While we knew of the astonishing success of Tanlac generally, we did not believe the general public had such knowledge of it or that its popularity would be so great here at once. There were a surprisingly large number of people who, having heard of Tanlac in other cities,

velcomed its arrival here." Among others who visited the Atlantic Pharmacy was Ben Knowlton, formerly of Detroit, Michigan, but now residing at 51 Ellsworth avenue, New Haven. Mr. Knowlton is a salesman and enjoys widespread popularity all through the middle west. He has btu recently moved to New Haven, which he expects to make his home. "I was glad to see Tanlac here," said Mr. Knowlton. "It is my personal 'safety first.' I first bought Tanlac in Detroit. Years on the road, with hastily eaten meals and irregular

sleep had made me a dyspeptic. I tried in many ways to gain relief, for I suffered intensely after each meal, steps only fitfully and had grown so nervous and run down my work actually falling off. I told my experience to a fellow salesman, he said, 'Get some

"I had no idea of following his adrice but he fairly dragged me to the Tanlac store and watched me take my first dose. In three weeks I had taken three bottles. The stomach trouble had disappeared. I was sleeping like a log and making some money, because I was selling more goods, I suppose I had started fifty people to taking Tanlac, and I have never seen it fail. I have marveled at its effects dozens of times. I have gained several pounds since I began to take Tanlac four months ago."

While directing the introduction of Tanlac, Mr. Ochincoff said: "No one should be surprised at the great demand for Tanlac because hundreds of people had heard of Tanlac through friends or relatives in other cities. Astonishing as it may seem, just nine months to the day, after Tanlac was first introduced, one million bottles had been distributed.
